

End of the year report for U21

As this past season has been different than any other, so will my year-end report.

Although this past season has been as far from normal season for us all, I would like to start off by thanking Lisa & Haley Tufts for volunteering at each and every ice time we had this past season as well as, personally thank the team for being amazing and abiding by all the health regulations throughout the season.

Unfortunately, due to Covid 19, this season we were unable to play any games at home or away against opposing teams or host our U21 tournament, but we all made the best out of a very different season compared to last season and instead had scrimmages each ice time.

I wish all of our players & goalie which have been with us since our first year back as a Juvenile/U21 Division that have now aged out this season, continued success on and off the ice and hope to see you at some of the games this upcoming season.... Maybe even as a U21 volunteer???

To all of the returning players & goalie, I hope you have an amazing off season & look forward to seeing you all back on the ice in a few months.

To all of the board of CVMHA, as well as VIAHA, BC Hockey, & Canada Hockey thank you for everything you did this past season to help keep all of the Minor Hockey players safe & healthy. It definitely wouldn't have been an easy task but we are all grateful.

Vanessa Knight
U21 Division Manager
