

Rep Director Report

Well, this year was like no other. I don't have a lot to report because I was only filling in helping teams schedule their weekday/weekend ice and communicating with the team managers...and what a great group of team managers they were! All teams kept their weekly ice until the end of February, some until mid-March. The coaches were obviously doing an amazing job at keeping their players interested and engaged to have them wanting to continue practicing and developing. I do hope these kids can get back to some normalcy and games next year. Huge thanks to all our volunteers who made the best out of the season!
